Graduate at UQ | Information Technology | Frontend Web developer, Software Developer at mydoctorlink

Skills

- Ability to learn quickly
 - Time management
 - Web design
 - Web Development
 - Application development
 - Programming ability
-

Experience

DEC 2020 – FEB 2021

Web Developer / The Trustee for Grey New Family Trust, Brisbane

Developed a website (<http://communityconnectors.com.au/> && <https://greynew.com/schoolsselprogram/>). The booking function(<https://greynew.com/book-a-cc/>) is added to the web page by using the plugin to optimize the page. Improve **SEO** performance.

MAY 2021 – PRESENT

Software Developer / Apeiron Health

Develop the **wordpress** website locally and build a **linux ubuntu 18 server** environment on the **virtual machine**. Deploy the locally developed **wrodpress** to the linux of **virtualbox**. Change the **vhost** file of **apache2** and the host file of the host, type www.wpdemo.com in the host browser to open the wrodpress webpage

Project experience

Development of a **Logic System** front end using **React.JS**, **HTML**, **JS**, **CSS**. **Firebase** as the backend, users log-in using registered emails, and **regex** to standardize the password format. Available association with a **google account**, password retrieval through email.

Re-vent:

An application that helps people get together (like Eventbrite). Use **React.js**, **HTML**, **CSS**, **JS** to build the front-end, **semantic-ui** as the UI library, **firebase** as the back-end, **React-redux** to realize the communication between components. **npm** for function implementation, for example: use 'react-places-autocomplete' and 'google-map-react' to automatically fill in and display the party address, 'formik' to create reusable forms. Use **redux-devtools-extension** and **react dev tool** as **debug tools**. Other programming tools utilised were: **react-router-dom**, **cuid**, **Google API**, **GIT**, **jQuery**, **Node.JS** etc.

Education

2019 -2020

Master of IT / The University of Queensland

Average GPA: 5.125

Advanced Database Systems(HD): • Distributed database design, query, transaction processing, data integration, data warehousing, data cleansing, management of spatial data, and data from large scale distributed devices. • Programming skills: **SQL, Java and Python.**

Interactive Technology(D): • Work in a multidisciplinary team to design, iterate and implement design projects.

SDLC was used in the whole process, and the webpage was developed according to the structure of MVC. • By using **JS**, users can synthesize their name with pictures, output the photo and download them. • Programming skills: **HTML, CSS, JS, QLD government API.**

Cloud Computing(D): • Design and develop applications by using **SaaS**. • Use the **GCP, docker, ubuntu** to implement SaaS to build scalable applications based on cloud computing architecture and tool

2016-2018

Bachelor of International Business / Griffith University

Average GPA: 5.00

COMPUTER & LANGUAGES

- HTML
